

## **CORONAVÍRUS: IMPORTANT ANNOUNCEMENT**

Since the beginning of coronavirus pandemic, Wilson Sons has been implementing protective measures, following health authority guidelines to assure the safety for our employees, local communities and our operations.

The Company's services are essential activities and continue to operate respecting the government decree 10.282 (20th March), following some protective measures across all our business units.

- A crisis committee was implemented to propose solutions and evaluate the impacts of the pandemic for the Company.
- Home office work routines for 95% of administrative employees across all Brazilian offices.
- Employees are instructed to not stay in canteens after meals.
- We have increased the availability of alcohol gel 70% in all our operations.
- Cleaning and hygiene measures have been intensified.
- Common areas of the Company's offices and facilities display helpful prevention tips.
- Confirmed cases among contractors have to follow the formal procedure of home isolation for at least 14 days, only returning to work when provided with medical clearance.
- Workers with a body temperature of 37.5°C or higher are prohibited to enter our facilities.
- Mandatory use of face masks (surgical masks) during activities with proximity under 2 meters.
- The HSE team and Company's doctor monitor all our site teams, onboard crewmembers for tests and isolation if necessary.

Wilson Sons' priority is the health and safety of our employees, partners, clients and communities around our operations. The Company will not spare efforts to ensure the best workplace and safest work environment for all stakeholders.

The Company is closely monitoring the evolution of the virus in the country and the development of the situation.

Wilson Sons

Wilson, Sons
